Game Season

The phrase the Glorious Twelfth may be known to some and may be a complete mystery to others. In fact, it refers to the 12th August, the date upon which the shooting season starts in this country. It is on this date that grouse are first shot with various other game birds, coming into season as the winter month's progress. At this time of year, all the game birds that include Grouse, Duck, Partridge, Pheasant, Snipe and Woodcock are in season.

Starter

Wild Scottish salmon tartar with sour cream and caviar

Main Course

Balmoral venison seared with Madagascan cracked black pepper on horseradish and herb crushed Jersey royals, pan fried wild mushrooms with spiced plum and port jus
